<sup>1</sup> House Bill 1522 states that a taxpayer impact statement must show, for the median-valued homestead property, a comparison of the property tax bill in dollars pertaining to the property for the current fiscal year to an estimate of the property tax bill in dollars for the same property for the upcoming fiscal year. Travis County Appraisal District does not report “median” homestead values, only “average” homestead values. Therefore, the calculations in this Taxpayer Impact Statement are based on the “average” homestead value of the District as reported by Travis County Appraisal District, excluding 65 years of age or older or disabled person’s exemptions.

<sup>2</sup> A copy of the Proposed Budget for the Upcoming Fiscal Year is available on the District’s website: <https://hurstcreekmud.org/>.

<sup>3</sup> The No-New-Revenue Tax Rate, expressed in dollars per \$100 of taxable value is calculated as follows:

$$\text{No-New-Revenue Tax Rate} = \frac{(\text{Last Year's Levy} - \text{Lost Property Levy})}{(\text{Current Total Value} - \text{New Property Value})}$$

The definitions for “Last Year’s Levy,” “Lost Property Levy,” “Current Total Value,” and “New Property Value” are provided in Texas Tax Code § 26.012.
